- UTC time format (needed conversion)

Data Preparation

- Removed duplicate records
- Handled missing values
- Converted UTC → South African time
- Created new fields:
- Time Slots (Morning, Afternoon, Evening, Midnight)
- Age Groups

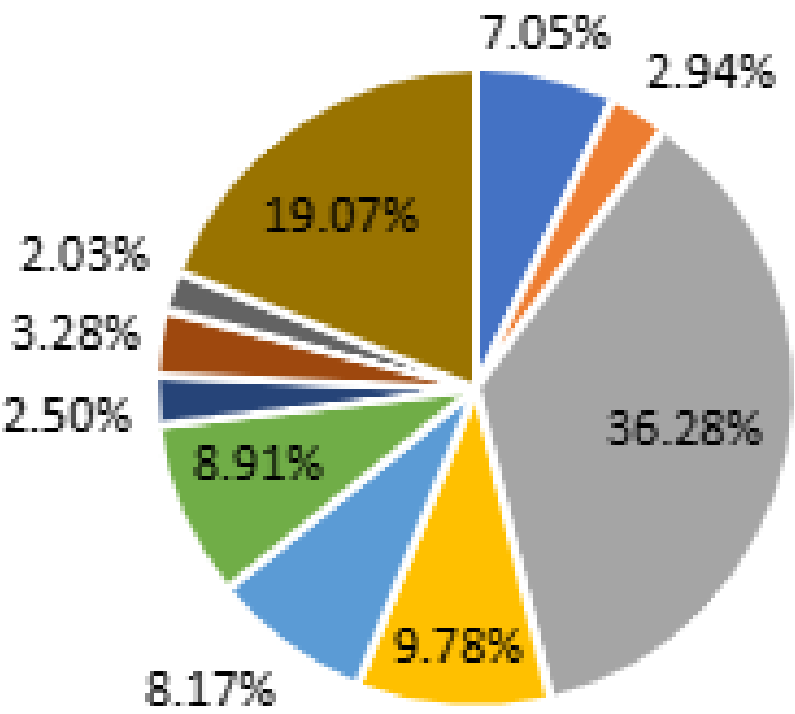

Analysis

02

Viewership by Province

Viewership Split by Province (%)

- Eastern Cape
- Free State
- Gauteng
- Kwazulu Natal
- Limpopo
- Mpumalanga
- No Province
- North West
- Northern Cape
- Western Cape

Gauteng

37%

Gauteng has the highest number of viewers with 3786 viewers

Northern Cape

2.03%

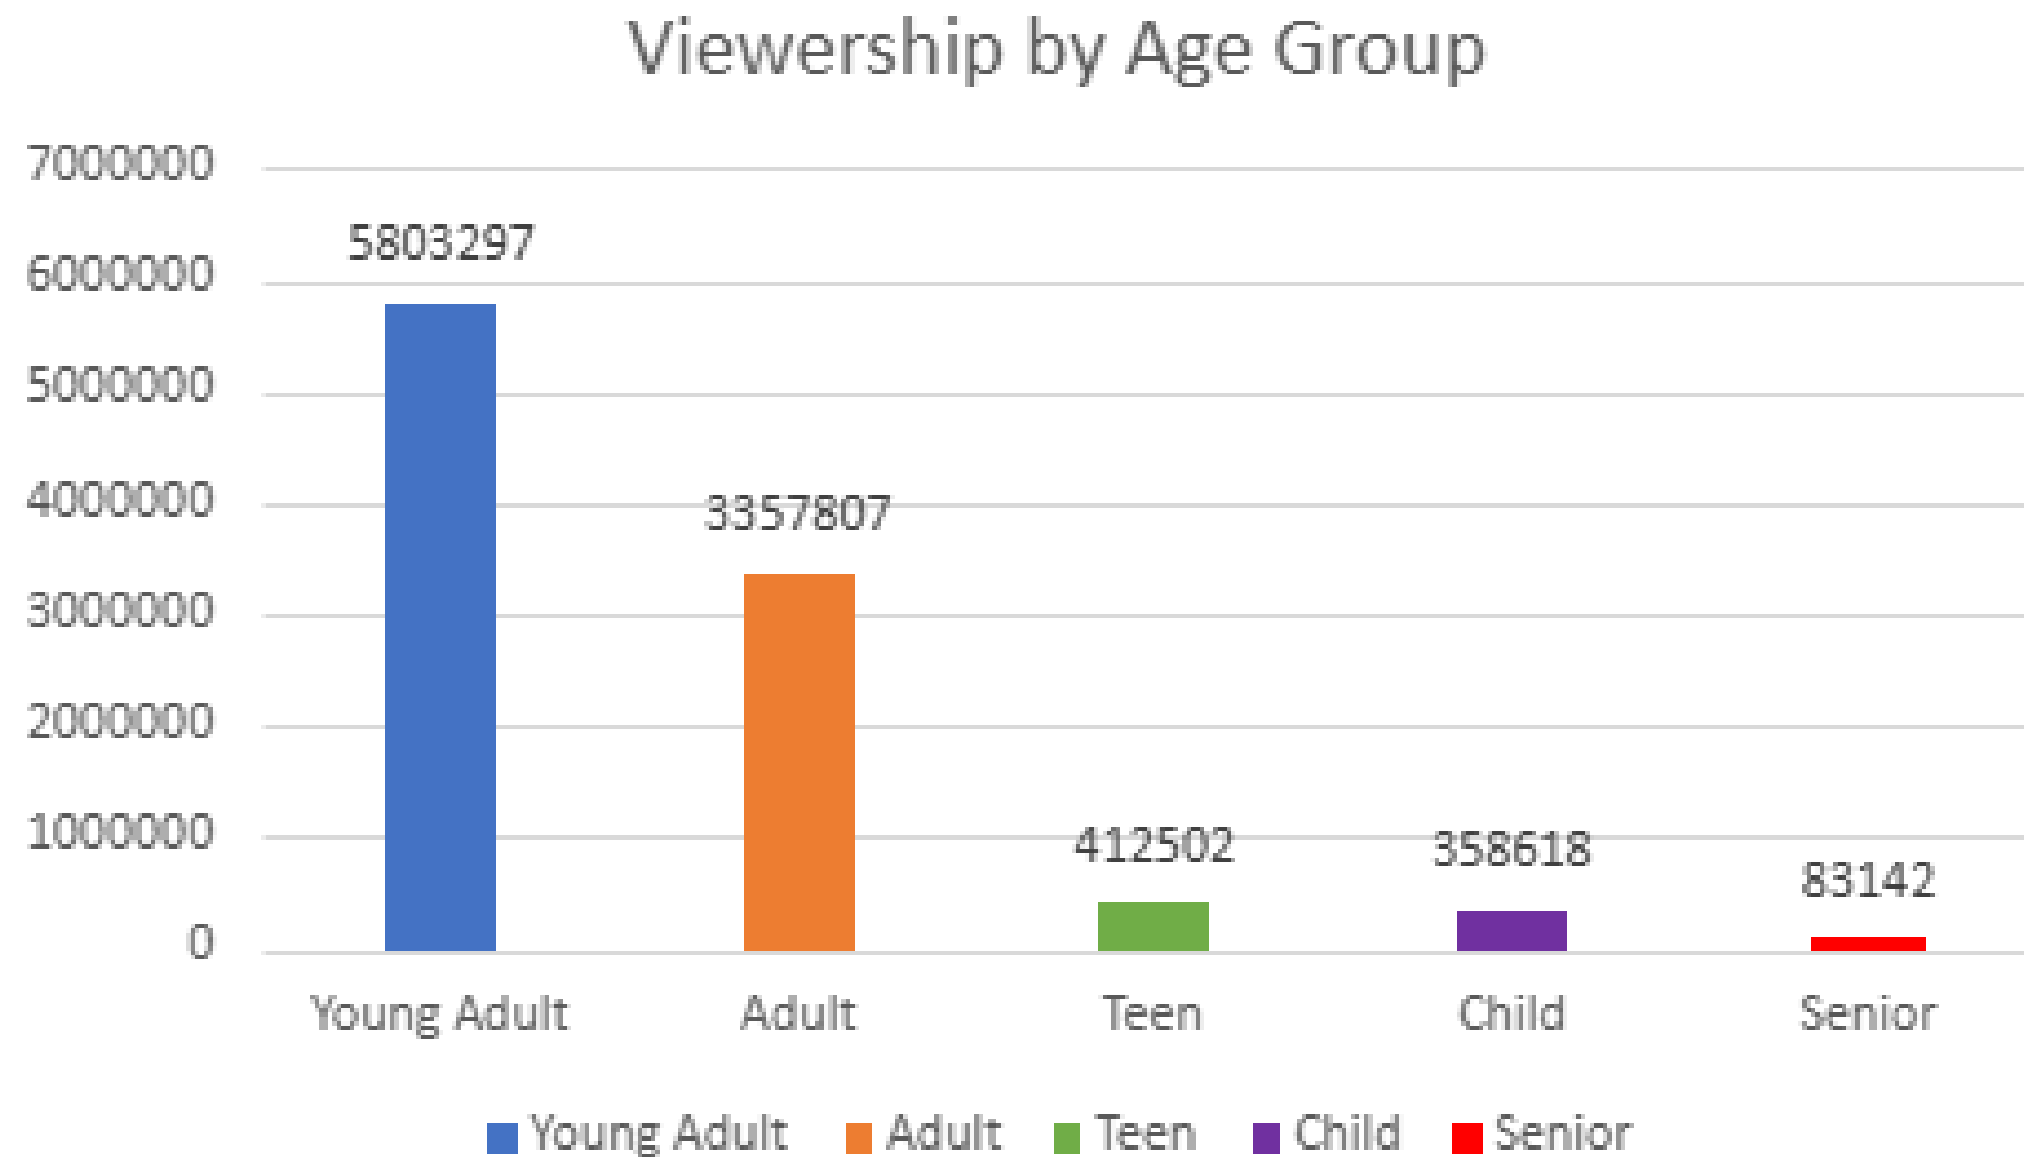

Northern Cape has the lowest viewership with 236

No Province

NULLS

1049 users did not provide province information

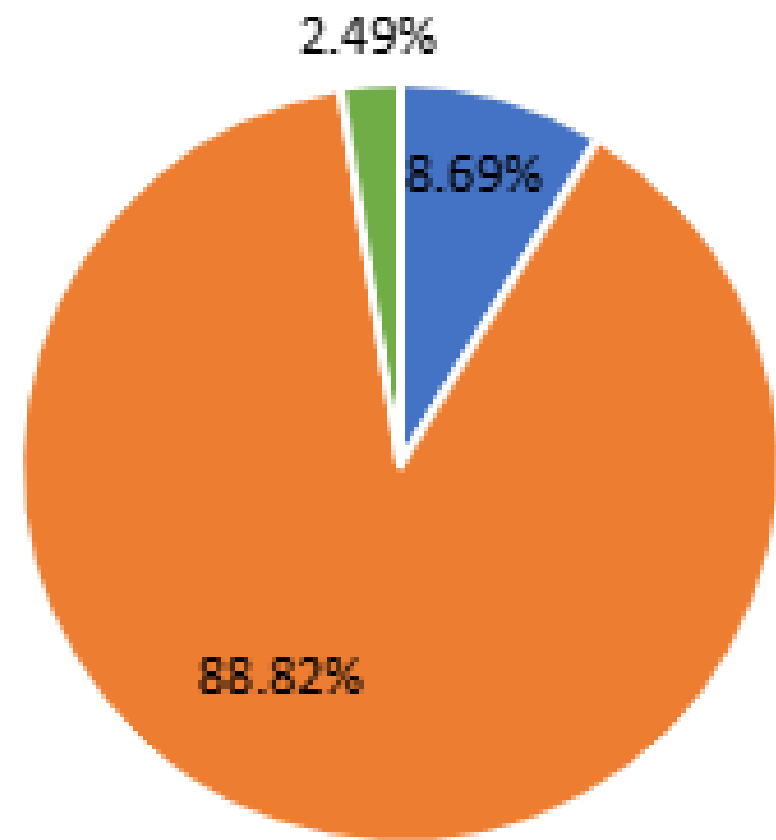

Viewership by Age Group

- Adults(30-35) dominate viewership
- Young adults also contribute significantly
- Very low viewership from older age groups

Viewership by Gender

Viewership Split by Gender (%)

■ female ■ male ■ No Gender

Male viewers dominates the platform

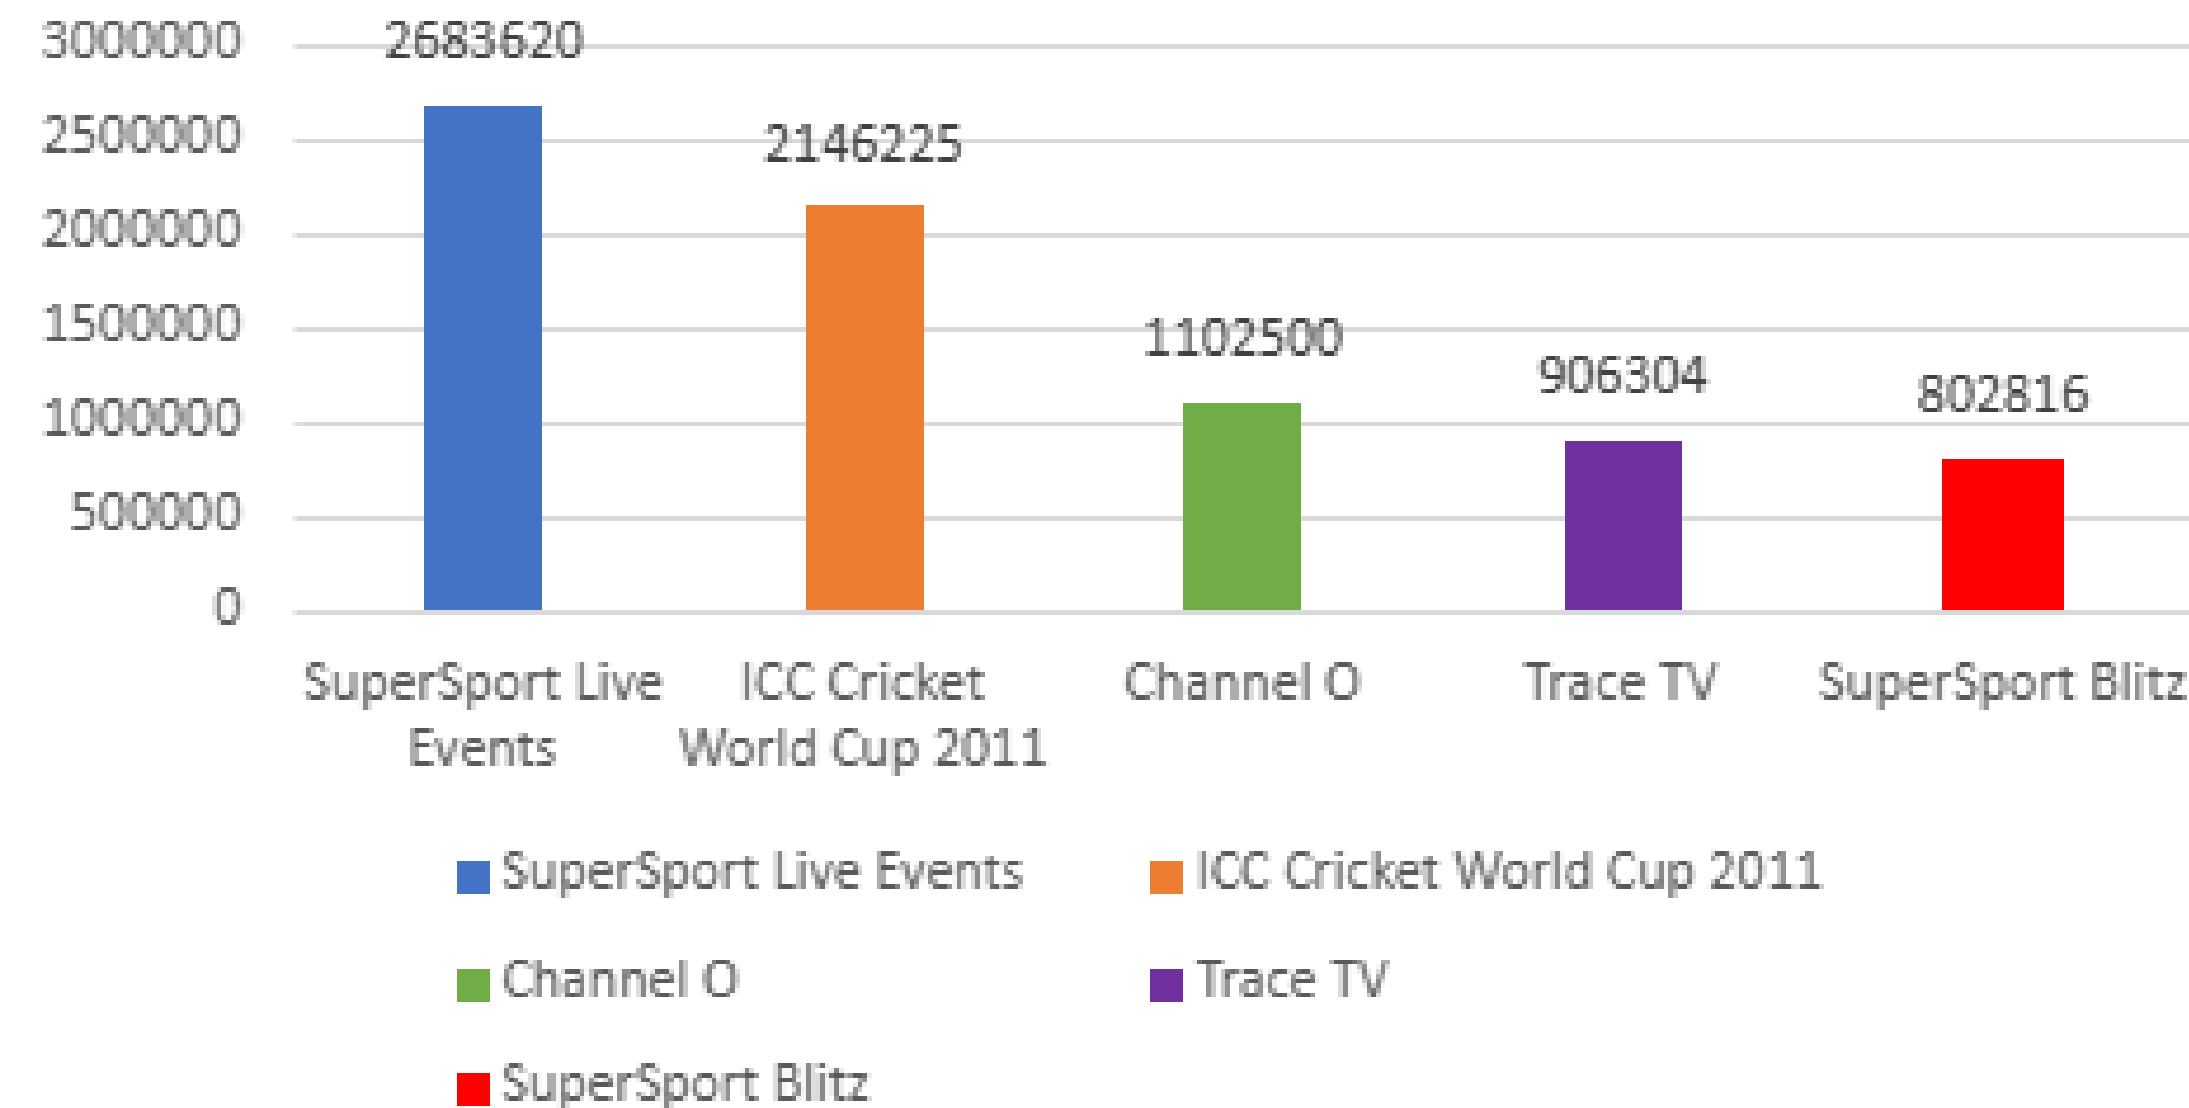

Female viewership is significantly lower

Some users did not provide gender data

Top 5 Most Watched Channels

Top 5 Most Watched channels

Sports channels have the highest viewership

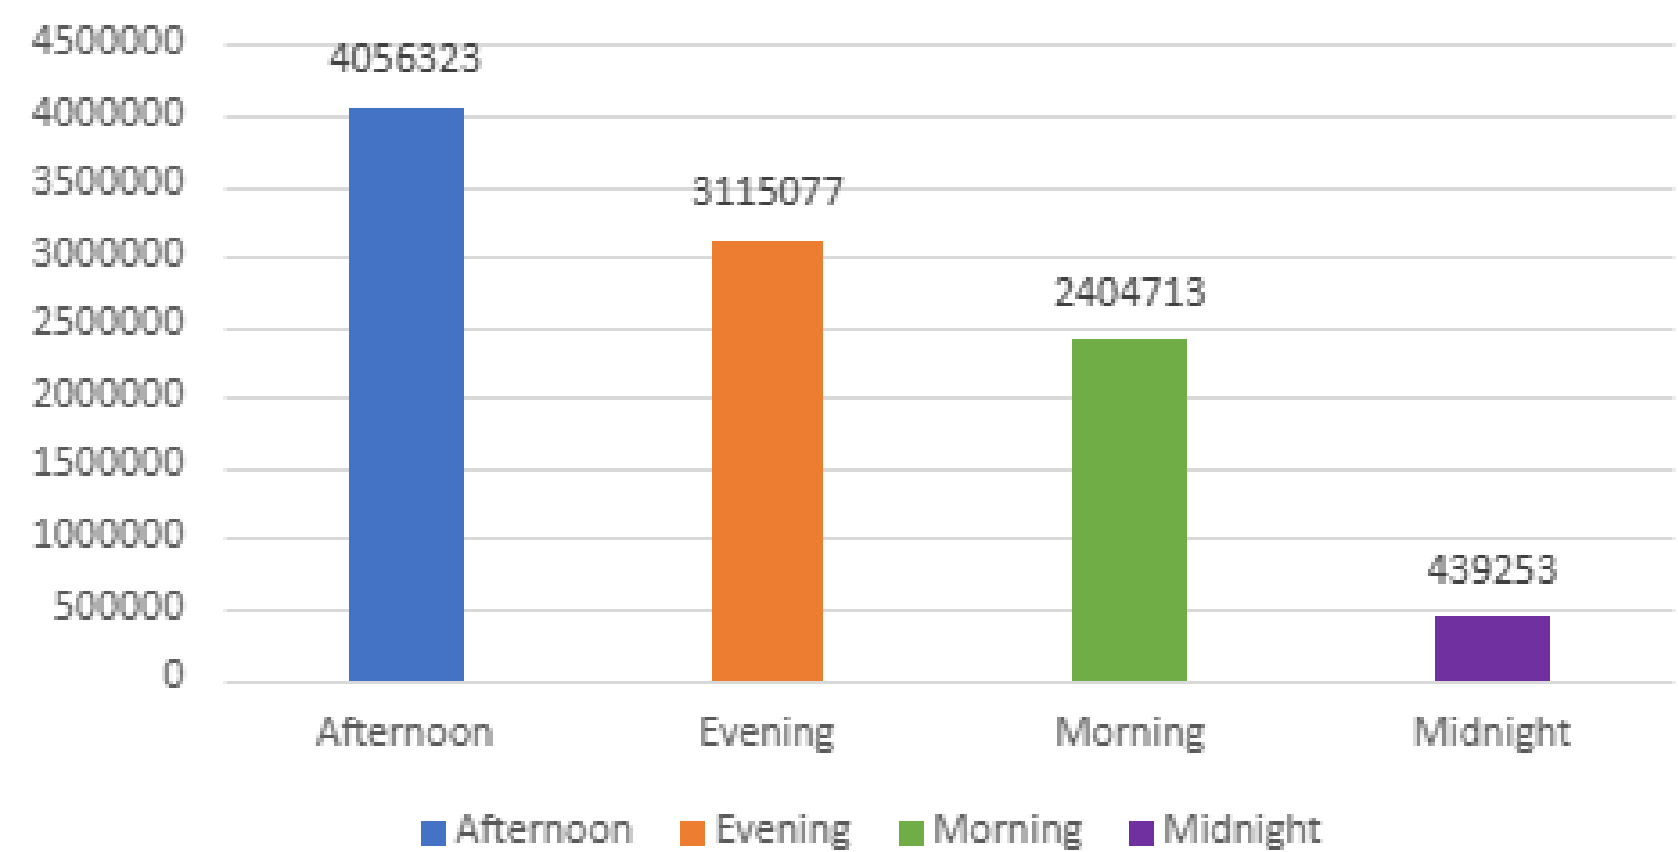

Music channels are also highly popular

Top 5 channels make up the majority of majority of views

Viewership by Timeslot

Viewership Split by Timeslot

Afternoon viewing(12:00pm-17:59pm)

afternoon is the most active viewing period, generating the highest number of views overall

Evening viewing(18:00pm-23:59pm)

Evening maintains high engagement, making it the second most popular viewing period

Morning viewing(12:00pm-17:59pm)

Morning viewership is moderate, indicating consistent but lower engagement earlier in the day

Midnight viewing(12:00pm-17:59pm)

Midnight records the lowest viewership, indicating minimal late-night activity

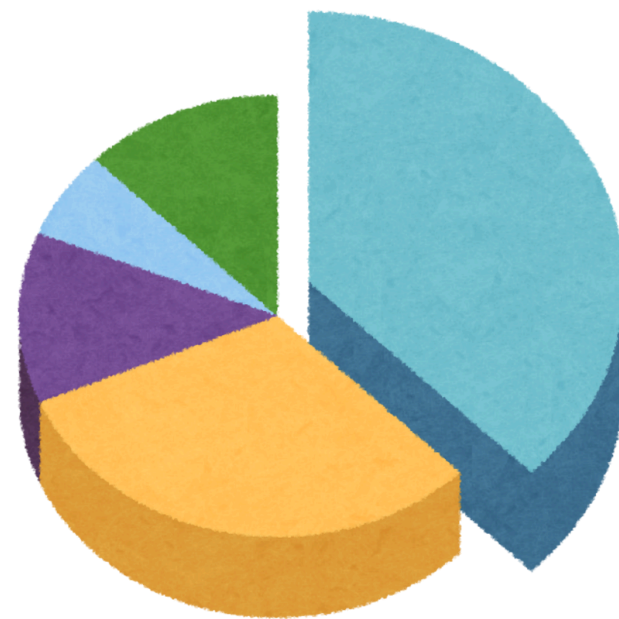

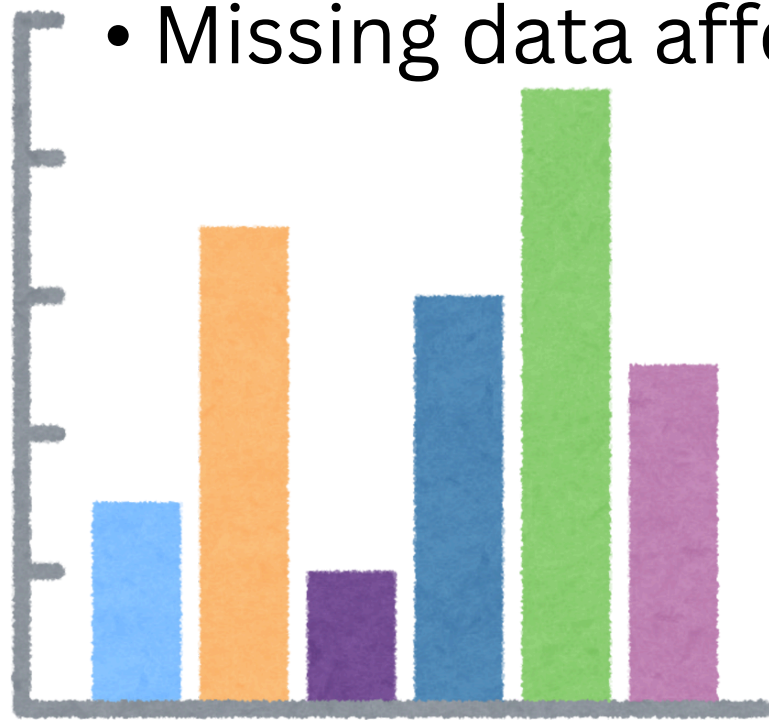

Conclusion

03

Key Insights

- Sports content drives the most engagement
- Majority of viewers are adults (30–50)
- Male users dominate the platform
- Peak viewing occurs in the afternoon
- Missing data affects analysis accuracy

Recommendations

Growth

- Expand high-demand content(sports & music)
 - Use free trials and promotions to attract users
- Partner with popular creators to increase reach

Engagement

- Send notifications at peak viewing times
 - Highlight top-performing channels
- Personalize content recommendations

Retention

- Improve user experience and content variety
- Re-engage inactive users with emails/reminders
 - Introduce loyalty rewards for frequent viewers

Conclusion

This Analysis provides valuable insights into viewer behavior

By leveraging these insights, BrightTV can:

- Improve user engagement
- Optimize content strategy
- Increase subscriptions and platform growth
